MARIAM JOAN │ FULL STACK DEVELOPER

3838 Carpenter Avenue, CA 91604 | 310-467-5170 | mariam.joan@att.net

MBA graduate, full stack developer, with exceptional entrepreneurial drive to incrementally succeed, from supporting customers, to building value and striving daily to solve problems while continually learning through self-instruction or asking questions, as a strong team player aiming for excellence in effective technical solutions and communication

EXPERIENCE

NETFLIX, Hollywood, CA (Public), Data Specialist, Contract   10/01/2018 to Present
* I work with Data Content Knowledge on the Data Engineering team to ensure data quality using Hive, SQL, and Python Jupyter Notebook to view correlations on all studio production titles through analyzing graphs and matching algorithms.

RECURPAL, San Francisco, CA (Private/Startup), Full Stack Developer   06/01/2018 to 10/1/2018
* Team of 3 building a financial based web application. My current projects include OAuth/Google log in flow, setup mongoDB cluster in AWS with S3 bucket permission and policies, VPC with subnets, Element-UI table, debugging Plaid API (client/server), Vue dashboard components, modals, and data-charts for UI using Chart.js, and Vue-Chartjs for user financial analytics.

SAGE PUBLISHING, Thousand Oaks, CA (Private), Sales   12/17/2015 to 06/01/2018
* 134% yearly 2017 YoY, $2.5M, Sales Achiever Award 2016 & 2017, Leadership Council 2018
* 102% yearly 2016 YoY, $1.5M, grew territory 4%, Q4 sales increased 7%,
* Exceeding 400+ cold and follow-up calls weekly, earning top annual recognition for call volume
